Emerald CX®

Anti-Shrink Cut-Resistant Composite
String Knit Gloves

#SCX6AS

This high-performance style in our Emerald CX® lineup resists shrinking even with repeated laundering, and features a composite blend of five yarns, including Kevlar® and several poly/cotton strands for washable comfort and durability. Gloves are rated ASTM cut-level 4 (2900 grams of cut force) and feature high abrasion resistance—yet are dexterous and comfortable. High-wear area between index finger and thumb is fully reinforced with a special cut- and abrasion-resistant yarn for extra protection.

All five fibers are distributed evenly across the knit for a consistency that increases both the effectiveness of the cut and abrasion resistance and glove lifespan.

Kevlar® is a registered trademark of E.I. du Pont de Nemours and Company.

2900 grams of cut protection.

FEATURES

- Excellent abrasion resistance: gloves withstood 2500 cycles of abrasion during Taber testing (good abrasion ratings enhance cut resistance and lifespan of glove)
- Full index finger and thumb reinforcement for increased cut and abrasion resistance in high-wear area of glove
- High-performance composite offers longer lifespan than regular aramid-based gloves
- Blend of five high-tech fibers are consistent across knit surface for better cut and abrasion protection and longer glove life
- Hand-to-hand reversible and fully launderable (*no chlorine bleach) for greater savings

APPLICATIONS

Metal Stamping
Automotive
Parts Assembly
Material Handling
