Composite Knit Cut-Resistant Gloves with  
Black Polyurethane Palms

#S13TAFGPU

These 13-gauge, cut-resistant gloves are part of Superior Glove's best-selling product line: the TenActiv™ series. Made with TenActiv™ yarn – a high performance, lint-free filament that is stronger than steel on an equal weight basis – these gloves are designed to meet a range of applications at a great price.

Thanks to their ANSI level A3 cut protection, these gloves are advantageous in any workplace where low to medium cut threats are a hazard. The black polyurethane-coated palms on these gloves will also strengthen your grip without adding bulk or reducing touch sensitivity.

When you wear these award-winning gloves, you'll experience nothing but great tactile feel, comfort, and dexterity.
